## Home Meridian International Opens Offices in Vietnam

(HIGH POINT, NC) – Home Meridian International has opened new offices in Ho Chi Minh City, Vietnam. The move further expands the company’s global operations.

“We have moved a significant portion of our production to Vietnam,” said George Revington, president and CEO. “With our experienced team in place in Ho Chi Minh City, we can better serve our customers by increasing efficiency and reducing costs.”

Home Meridian also operates offices in Dongguan City, China. Dwayne Wood, vice president of Asian Operations, said his team is responsible for the sourcing, product development, quality control, and supply chain management for each of Home Meridian’s strategic marketing units.

“Our new Vietnam offices are fully integrated and network with our China and U.S. offices. This structure allows us to seek out the lowest costs possible while providing the best service to our customers,” Wood added.

Home Meridian was formed in 2006 with the merger of Pulaski Furniture and SLF (Samuel Lawrence Furniture). The company’s other strategic marketing units are SLH (Samuel Lawrence Hospitality), which sells contract and hospitality products, and Creations, a producer of juvenile furnishings.

Virginia-based Pulaski Furniture is known for leadership in design and integrated marketing. Pulaski’s portfolio of licensed and proprietary collections include Casa Cristina, based on the Latin Media sensation, Cristina Saralegui; Accentrics, a full line accent program; its unparalleled collection of display cabinets; and its licensed Build-A-Bear Workshop® HOME Collection.

SLF, with offices in Phoenix, AZ; High Point, NC; and Dongguan City, China, is a global, multi-divisional, design, sourcing and marketing company that is a leader in shipping full and mixed containers from inventory in China directly to major retailers in the United States.
